## PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on internship experience delivering scalable web and mobile applications in production environments. Strong problem-solving background with 700+ DSA problems solved across LeetCode, Codeforces, and CodeChef demonstrating core CS mastery. Experienced in building clean APIs, modular backend services, and user-centric interfaces with reliability and performance focus. Motivated engineer focused on maintainable code, system design fundamentals, and measurable product impact.

## EDUCATION

### Newton School of Technology, Rishihood University

B.Tech in Computer Science and Artificial Intelligence

Sonipat, Haryana

2024 – 2028

### BLM Academy

Intermediate (Class XII)

Uttarakhand, India

2022 – 2023

## EXPERIENCE

### Plugseal Innovation Services Private Limited

Software Developer Intern

Remote

Apr 2025 – Jul 2025

- Delivered production features across authentication, payments, and REST APIs actively used by real users.
- Improved backend performance and reliability through query optimization and modular service design.
- Collaborated with senior engineers to refactor codebases, reduce technical debt, and improve maintainability.

## PROJECTS

### Campus Connect — Student Community App [\[Code\]](#) [\[Live\]](#)

- Built a mobile-first community platform enabling students to post updates, discover events, and engage on campus.
- Designed scalable authentication, feed, and event workflows supporting consistent user engagement.
- Optimized UI responsiveness and data flow to ensure smooth performance under concurrent usage.

### Messia — Gifting Platform [\[Code\]](#) [\[Live\]](#)

- Developed an end-to-end gifting platform enabling secure purchases, scheduling, and seamless checkout experiences.
- Built structured admin and user workflows for managing inventory, orders, and delivery timelines.
- Improved usability and conversion through filtering, recommendations, and optimized purchase flows.

### Groway — Skill Testing Platform [\[Code\]](#) [\[Live\]](#)

- Built an online assessment platform supporting timed quizzes, dynamic questions, and automated evaluations.
- Designed analytics dashboards enabling users to track performance trends and improvement areas.
- Architected the system for scalability with consistent performance under increasing user load.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, Kotlin, SQL, HTML, CSS

**Frameworks:** React, React Native, Next.js

**Backend:** Node.js, Express.js, FastAPI, Strapi CMS

**Databases:** PostgreSQL, MongoDB, MySQL

**Tools:** Git, Prisma ORM, Postman, ESLint

## COMPETITIVE PROGRAMMING

---

**LeetCode:** 300+ coding questions solved — Rating: 1500+

**Codeforces:** 115+ coding questions solved — Rating: 972

**CodeChef:** 330+ coding questions solved — Rating: 1260
